

- The isolated motion arm can make the strength training more balanced.
- The seat is slightly tilted to minimize joint strikes.
- The balance power on the left and right handrails reduces the resistance.
- The user can easily adjust the seat to their desired range of motion when sitting

Specifications:

DIM: (L)1500*(W)1550*(H)1600mm

N.W: 275KG

Weight stack:

Standard: 80KG

Max: 130KG

Muscles trained:

Scapular muscle, Trapezius

Tube-60*120mm oval combine with 60mm round tube, make design high-class.

Aluminum slide-way support the seat, make the adjustment smooth and comfortable.

Pulley Dia. : \varnothing 106mm as metal, keep machine smooth and durable lifetime, effectively in keeping

lower noise.

5 position gears handle, can be suitable in different users' requirements.

Isolated motion, which can do separated exercise for special training, to get the smooth and professional workout.

D-land tube of the weight tower, size 20cm. Combine with the wedge-shape design. Make

machine solid and stable.

Specification:

Pulley: Diameter is 120mm with injection molding technique

Painting: Two layers

Seat Adjustment: Air powered adjustment system

Cable: Diameter is 5.5mm

Weight Stacks: Cast Steel
